## WORKING TO PROTECT OUR ENVIRONMENT

- **Chemical-Pack Services (CPS)** is a full service, state-of-the-art environmental company specializing in lab pack waste management services. Our unique service approach translates into sound, cost effective results for our clients.

Our turn-key service begins by first obtaining an understanding of your environmental needs and then by providing the service to match those needs. Services can be tailored to fit clients with needs ranging from having just a few small containers for disposal to clients requiring full time waste management outsourcing.

CPS Services include all facets of proper lab pack management including waste inventory, segregation, packaging, transportation, proper waste processing/disposal and required paperwork and documentation. All work is performed in accordance with EPA, DOT and OSHA guidelines.

### Industries Served by Chemical-Pack Services (CPS)

- Hospitals
- Industrial, Manufacturing
- Research and Development Facilities
- Government Facilities
- Schools
- Chemical R&D Facilities
- Colleges, Universities
- Private Households
- Municipalities

### Highlights of Chemical-Pack Services (CPS) Include:

- Complete turn-key service including: packaging, labeling, transportation to Chemtron for de-pack and processing
- Handling of all chemicals, even "untouchables" by most companies, including: explosives, water and air reactives, pyrophoric, biological, shock sensitive, radioactives, cylinders and unknowns
- Strict adherence to all applicable EPA, DOT regulations
- 24-hour emergency response service
- Over 540 permitted EPA waste codes
- Technically trained chemists with many years experience
- Promoting chemical awareness and safety

### CPS and Chemtron Corp: A Winning Combination

Chemtron Corp is a fully permitted, Part B, TSD facility located in Avon, Ohio. Having a permit with over 540 waste codes, Chemtron accepts and processes most waste types. CPS was created in 2000 as an offshoot of Chemtron and has grown today to become an industry leader. Close ties remain between both organizations resulting in high client satisfaction. Just ask! We have client referrals available upon request.

### How to Get Started

Call 440.933.6348 or email us today (info@chemtron-corp.com) to arrange for a meeting with our sales/service specialists.
